

## LORD CURZON MAY SUCCEED DURAND

Former Viceroy of India Slat-  
ed For Ambassador.

Washington Surprised at Kentucky's  
Congressional Showing—Three  
New Ones.

### GOSSIP FROM THE CAPITAL

Washington, Nov. 9.—Lord Curzon, former viceroy of India, is mentioned in diplomatic circles as a possible successor to Sir Henry Mortimer Durand, the British ambassador to the United States, who is to give up his post and retire from the British diplomatic service next spring.

### Kentucky's Record.

Washington, D. C., Nov. 9.—Kentuckians are surprised at some features of the election results in their state. Few Kentuckians, even Republicans, expected that their party would carry three or four congressional districts. The only one regarded as sure by them was the Eleventh. They were hopeful as regards the Third, Ninth and Tenth, but lacked confidence in the outcome because they realized that the Democratic primary would bring out the full vote of that party. Notwithstanding this, the latest information received here shows that the Third, Ninth and Tenth districts are surely Republican and that Dr. A. D. James, Congressman Bennett and John W. Langley have been elected. If Republicans are surprised, the Democratic congressional committee is astounded, because it had positively claimed everything in Kentucky except the Eleventh district.

### Miss Stockton's Acting.

Miss May Stockton, formerly a member of the English stock company, had a great tribute paid to her acting recently in Brooklyn, N. Y., by the Gerry society.

Miss Stockton plays juveniles, and so successful was she in depicting the part of a little girl, that the Gerry society got after her. Miss Stockton had a hard time convincing the society officers that she is a woman and not a child.

The hair is a product of the blood, and all the treatments in Christendom do no good, unless they are specifically designed to cure the disease peculiar to the scalp. ### AN OPEN LETTER

To the People of Paducah.

To Whom It May Concern:

Of late there has been a good deal of discussion in Paducah in regard to advertised medicines and their value—the papers are full of them.

We want to say to every man, woman and child in Paducah that we believe the most valuable preparation of cod liver oil—the best tonic, restorer, health restorer and strength creator—we have ever sold in our store is Vinol.

Vinol is not a patent medicine, it contains no injurious drugs, but it actually does contain all of the medicinal, curative elements taken from fresh cod's livers, without a drop of the useless oil to upset the stomach and retard its work, and tonic iron added.

Vinol is recognized throughout the world as the greatest strength creator for old people, weak, sickly women and children, nursing mothers, and after a severe sickness.

Vinol cures hacking coughs, chronic colds, bronchitis, and all throat and lung troubles. We ask the people of Paducah to try Vinol on our offer to return money if it fails. W. B. McPherson, druggist.

Note—While we are sole agents for Vinol in Paducah it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

## TARIFF EXPERTS FOR CONCILIATION

Start To Germany To Discuss  
Reciprocity Treaty.

Work of Arthur and Blaine and McKinley Went for Naught in Senate.

### NECESSITY FOR THE TREATY

Washington, Nov. 9.—The tariff experts who sailed for Germany, go as missionaries of conciliation. The trade situation with Germany is very delicate. A year or more ago the reichstag advanced the duties upon imports of all kinds, particularly agricultural products, to prohibitive rates. The German foreign office then made reciprocity treaties with Russia, Austria, Hungary, Italy, and other countries under which, by mutual concessions, the producers of those countries were given the minimum duties upon wheat and other breadstuffs, meats, provisions of all kinds, fruits, vegetables and other articles of food which are exported from the United States to Germany in larger quantities than from any other country. If the law was strictly enforced the duties on food products imported into Germany from the United States would be more than double those imposed upon similar articles from Russia, Austria, Hungary, Italy and other countries. To show its good will toward the United States, the German government made a very generous concession by agreeing to extend the same minimum rates to our products for one year, so that the trade between the two countries might not be disturbed, while an opportunity was given to negotiate a permanent arrangement.

This concession expires June 30, 1907, when, if a reciprocity treaty is not concluded, in the meantime, the maximum duties will be imposed upon all imports into Germany from this country. These maximum duties are very much higher than those now being paid; in some cases, double; in other cases, 50 and 60 and 75 per cent higher.

Some people think that these maximum rates were imposed especially to prevent the importation of American goods into Germany, but, as a matter of fact, they are only a part of the general commercial policy of the German government to extend its foreign commerce; to find markets for the products of its own people through such reciprocity arrangements as President Arthur endeavored to establish in 1884 between the United States and the other American republics; such as Mr. Blaine inaugurated and Mr. Foster concluded after the first international American conference in 1889. Indeed, the German government has been carrying into practical effect the policy which President Arthur and Mr. Blaine urged so strongly and persistently upon the congress of the United States and which President McKinley recommended in his messages, in his public speeches, and in private conversation. These efforts were defeated and Mr. Blaine's work was destroyed by President Cleveland and the last Democratic congress in 1894-5. President McKinley's plans were defeated by Speaker Reed, Mr. Dingley, chairman of the ways and means committee; Senator Aldrich of Rhode Island; Senator Lodge of Massachusetts and others.

It is absolutely necessary for the government of the United States to act promptly in this matter, because the present temporary arrangement with Germany expires on the 30th of June next. Some departmental regulations may be modified for the convenience of German exporters, but nothing effective or permanent can be done without the action of congress and there is very little prospect of accomplishing anything at the regular short session of congress, because the regular routine business will require the entire time.

Let Hogs Run at Large. Mrs. H. C. Shafer and Eula Byers, of the Mt. Olivet church section, have been summoned to appear before Magistrate Charles W. Emery tomorrow afternoon to answer to the charge of suffering hogs to run at large on the public highway. Complaint was made by Frank Wilcox, a farmer of that section.
